GovHub Defect Log:

Team 21 - Cole Compton, Christian McKain, Jacob Riggs, Julian Ng

Defect No.	Defect Description	Defect Severity	Type of Higher-Order Testing	Test Case No. or Description
1	The "none" category is confusing in the category filtering	Workaround	Usability	23
2	Filtering by location was difficult as there was no instructions on how much of the address to include (street number, road, city, zip, or some combination?)	Workaround	Usability	There is nothing in the specs about filtering by location, so we did not make a test case for it, but it would be nearly identical to test case 23
3	User can change password in one tab and it will not log out of other logged in tabs	Important	Security	36
4	Changing the email does not confirm with new email and does	Important	Security	34

	not log out of account			
5	Adding a new issue by location is difficult to tell when you have left the cities area	important	Usability	While testing the functionality of adding issues by location it was hard to tell if we were placing outside the city or if actual bug
6	In order to upgrade an account to administrator status, we needed to contact the development team so they could do it.		Usability	Testing administrat or functionaliti es
7	Was able to cause significant slow down after 100 users were using the service simultaneously.	Important	Volume	No mention in spec sheet about expected users on average
8	Change password page asks to confirm current password rather than confirming	Workaround	Usability	36

	new password. This is the opposite of what is widely done, where the password to be confirmed is the new password			
9	Passed: Website blocks users and gives warnings from trying to spam submitting issues	Critical	Performance	Passed
10	Typing a password that does not match the password criteria i.e. is all lower case letters still works even though it should not.	Workaround	Security	28
